

Public Notice

U.S. Army Corps Of Engineers Galveston District	Permit Application No: _____	SWG-2007-586
	Date Issued: _____	7 June 2007
	Comments Due: _____	9 July 2007

**U.S. ARMY CORPS OF ENGINEERS, GALVESTON DISTRICT
AND
LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY**

PURPOSE OF PUBLIC NOTICE: To inform you of a proposal for work in which you might be interested. It is also to solicit your comments and information to better enable us to make a reasonable decision on factors affecting the public interest. We hope you will participate in this process.

AUTHORITY: This application will be reviewed pursuant to Section 10 of the Rivers and Harbors Act of 1899 and Section 404 of the Clean Water Act.

APPLICANT: Rosetta Resources Operating, L.P.
717 Texas Avenue, Suite 2800
Houston, Texas 77002-2743

AGENT: John T. Jakubik & Associates, LLC
4309 Greenbriar Drive
Stafford, Texas 77477-4205
Telephone: 281-240-0498
POC: John T. Jakubik

LOCATION: The project is located within Sabine Lake, in portions of State Tracts (ST's) 30, 33, 36, and 39 in Jefferson County, Texas, and State Lease (SL) 19071, in Cameron Parish, Louisiana. The project can be located on the U.S.G.S. quadrangle maps entitled: Port Arthur North and Port Arthur South, Texas. Approximate (mid-point) UTM Coordinates in NAD 27 (meters): Zone 15; Easting: 415301; Northing: 3305803.

PROJECT DESCRIPTION: The applicant proposes to install three 10-inch-diameter pipelines (A, B, and C) associated with well sites within Sabine Lake ST's 30, 33, 36, and 39 and SL 19071 in Cameron Parish, Louisiana. (Note: Pipeline "D" has been recently deleted from this proposed permit work.) The work consists of installing, operating and maintaining structures and equipment necessary for oil and gas drilling, production and transportation activities. Such activities include installation of typical marine barges and keyways, shell and gravel pads, production structures with attendant facilities, and flowlines.

NOTES: This public notice is being issued based on information furnished by the applicant. This information has not been verified. The applicant's plans are enclosed in 5 sheets.

A preliminary review of this application indicates that an Environmental Impact Statement (EIS) is not required. Since permit assessment is a continuing process, this preliminary determination of EIS requirement will be changed if data or information brought forth in the coordination process is of a significant nature.

Our evaluation will also follow the guidelines published by the U.S. Environmental Protection Agency pursuant to Section 404 (b)(1) of the Clean Water Act (CWA).

OTHER AGENCY AUTHORIZATIONS: Texas Railroad Commission certification is required.

Texas Coastal Zone consistency certification is required. The applicant has stated that the project is consistent with the Texas Coastal Management Program goals and policies and will be conducted in a manner consistent with said program.

State of Louisiana Coastal Zone Management Consistency is also required.

Louisiana Department of Environmental Quality (LDEQ) water quality certification is also required. Concurrent with processing of this application, the LDEQ is reviewing this application under Section 401 of the Clean Water Act and in accordance with LRS 30:2074A(3) to determine if the work would comply with State water quality standards and other applicable provisions of the Clean Water Act. By virtue of an agreement between the U.S. Army Corps of Engineers (Corps) and the LDEQ, this public notice is also issued for the purpose of advising all known interested persons that there is pending before the LDEQ a decision on water quality certification under such act. Comments concerning this application should be filed within 30 days from the date of this notice with the Office of Environmental Services using the above permit application number as reference. Comments should be sent to: Louisiana Department of Environmental Quality, Office of Environmental Services, P.O. Box 82135, Baton Rouge, LA 70884-2135. Additional information is on file with LDEQ, and may be inspected at any time between 8:00 A.M. and 4:30 P.M. weekdays. Copies may be obtained upon payment of cost of printing. A final decision on this application will be made within 60 days after the date of this notice. The LDEQ may conduct a public hearing to consider all comments concerning water quality if requested in writing. A request for a public hearing must contain the following information: the name, mailing address, application number, or other recognizable reference to the application; a brief description of the interest of the requester, or of persons represented by the requester; and a brief description of how the application, if granted, would adversely affect such interest.

NATIONAL REGISTER OF HISTORIC PLACES: The staff archaeologist has reviewed the latest published version of the National Register of Historic Places, lists of properties determined eligible, and other sources of information. The following is current knowledge of the presence or absence of historic properties and the effects of the undertaking upon these properties:

The ST's proposed for work under this permit application are not included in the Texas Antiquity Committee's list of tracts containing State Archaeological Landmarks. Therefore, the proposed activities are not likely to affect pre-20th-century shipwrecks. In addition, the Galveston District staff archeologist has no information regarding the potential presence of properties eligible for inclusion in the National Register of Historic Places for SL 19071 within Louisiana state waters. An investigation for the presence of potentially eligible historic properties may be justified if recommended by Louisiana SHPO.

THREATENED AND ENDANGERED SPECIES: Preliminary indications are that no known threatened and/or endangered species or their critical habitat will be affected by the proposed work.

ESSENTIAL FISH HABITAT: This notice initiates the Essential Fish Habitat consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. Our initial determination is that the proposed action would not have a substantial adverse impact on Essential Fish Habitat or Federally managed fisheries in the Gulf of Mexico. Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the National Marine Fisheries Service.

PUBLIC INTEREST REVIEW FACTORS: This application will be reviewed in accordance with 33 CFR 320-330, the Regulatory Programs of the Corps, and other pertinent laws, regulations and executive orders. The decision whether to issue a permit will be based on an evaluation of the probable impacts, including cumulative impacts, of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefits, which reasonably may be expected to accrue from the proposal, must be balanced against its reasonably foreseeable detriments. All factors, which may be relevant to the proposal, will be considered: among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shore erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs and, in general, the needs and welfare of the people.

SOLICITATION OF COMMENTS: The Corps is soliciting comments from the public, Federal, State, and local agencies and officials, Indian tribes, and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the Corps determine whether to issue, modify, condition or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and the other public interest factors listed above. Comments are used in the preparation of an Environmental Impact Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

This public notice is being distributed to all known interested persons in order to assist in developing facts upon which a decision by the Corps may be based. For accuracy and completeness of the record, all data in support of or in opposition to the proposed work should be submitted in writing setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

PUBLIC HEARING: Prior to the close of the comment period any person may make a written request for a public hearing setting forth the particular reasons for the request. The District Engineer will determine whether the issues are substantial and should be considered in the permit decision. If a public hearing is warranted, all known interested persons will be notified of the time, date, and location.

CLOSE OF COMMENT PERIOD: All comments pertaining to this Public Notice must reach this office on or before **9 July 2007**. Extensions of the comment period may be granted for valid reasons provided a written request is received by the limiting date. **If no comments are received by that date, it will be considered that there are no objections.** Comments and requests for additional information should be submitted to:
